Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6, 12, 16, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,069,286.

US'286 discloses a method that includes a method for improving the permeability of a well, the method comprising: selecting a well suspected of containing polymer deposits', and pumping a well treatment composition into the well, wherein the composition comprises water, a buffer, and hydrogen peroxide or a per-acid. With respect to depending claims 2-6, 12, and 16, the reference teaches the limitations as claimed (see entire document, especially cols. 6-7). With respect to claim 17, the reference discloses a method that includes a method for improving the permeability of a well, the method comprising: selecting a well suspected of containing polymer deposits; and pumping a well treatment composition into the well, wherein the composition comprises water and hydrogen peroxide.

Allowable Subject Matter

3. Claims 7-11 and 13-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 3/20/06 have been fully considered but they are not persuasive. Applicant argues that the US'286 reference does not teach treating a well with a composition comprising water, a buffer, and hydrogen peroxide. However, the reference teaches, more broadly in cols. 3, line 50 - col. 7, line 3, a method for treating wells having slime, scale, and oxides, which are considered "polymeric" in nature. The composition includes an acetic acid/acetate salt buffer as well as hydrogen peroxide.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3676

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
